

SLICK FLOOR TOO MUCH FOR PENDLETON

UNION DEFEATS LOCALS 19 TO 6 IN DANCING PAVILION; CHAMPIONSHIP YET UNDECIDED.

By a score of 19 to 6, the Pendleton high school basketball boys were defeated Saturday evening at Union by the high school team of that city. Though the score indicates that the local boys met a superior team, they earnestly contend to the contrary, ascribing their defeat to the fact that they were forced to play on a dancing floor and could not keep their feet.

"The floor was like an ice pond," said Manager Russell this morning. "We put resin on our shoes but were forced to take it off again before we began. It was impossible for us to keep our feet while the Union boys were accustomed to the floor and had not the same difficulty. We do not think Union has as fast a team as La Grande whom we defeated Friday night 31 to 25."

The result of the Saturday night game leaves the eastern Oregon championship in doubt. La Grande and Union have not met this year and each refuses to meet the other except at home. Pendleton and La Grande may arrange another game, the winner of which will claim the championship.

Relative to the game Friday evening in La Grande, the Observer of that city says in part:

Pendleton used a method of attack that was diametrically opposite to that

of La Grande's, and furthermore, broke up La Grande's style of play by massing her players under the La Grande goal, where through sheer numbers, they were able to guard closely.

La Grande connected for only four points out of 13 fouls called on Pendleton, and of course lost their chance to win through the fact La Grande suffered nine fouls and of these Pendleton made five register as scores. Peters of Pendleton, rang up the highest number of points for the visitors and about half of them were eyelash affairs, but it was Straughn, Selbert, Fowler and Russell that did the connecting with the greatest degree of sensationalism. It was these long heaves from anywhere on the floor that largely won for Pendleton. The La Grande team plays a close-in fighting game, and was caught napping when Pendleton players were in the middle of the floor. But the homers finally stopped much of the mortaring from far off and is evolved upon Peters to ring the bell. He is a player of the type which has made Pendleton famous in the past. La Grande's attack is the short throw route and Pendleton broke up this style of massing her players under the La Grande basket, smothering down the forwards at every twist.

BULGIN PLEADS FOR SQUARE DEAL FROM PENDLETON

(Continued from Page 1.)

Some thoughts throughout the sermon were as follows: "Paul's reply to the jailer, believe on the Lord Jesus Christ and thou shalt be saved—was most complete, for Jesus equals savior, from sins, Christ is the anointed who is pleader and keeper after salvation, and Lord is the master or ruler whom we as Christians must obey. Repentance is godly sorrow for sin, and you are so sorry that you quit the sin. The moral man is simply sorry because he is caught in sin, and if never was caught he would keep on doing it. There must be an atonement, a wiping out of the sins of the past, present and future, that is only through the death of Christ. From eternal societies can't save and redeem a soul; they can't go back and blot out the past. Justification is a state of the soul before God. God can't justify a sinner in his sins. I am lost, I realize it, Jesus took my place and bore my sins, and I am in a state of justification before. Many people simply try to use religion as a fire escape. Conversion is a change of life, a right about face. It is the sinner's act. God's act is redemption. If conversion is genuine restitution will follow. Wherever it is possible for the sinner to restore and repair what wrong he has done to any one, God will not require an impossibility." A number responded and came forward Saturday night. Sunday afternoon a fair sized house listened to Dr. Bulgin. Sunday night the tabernacle was crowded and he took as his text, Luke 16:31: "If they hear not Moses and the prophets, neither will they be persuaded, if one rose from the dead." Before beginning the sermon Dr. Bulgin and his helpers, Mr. George Rose read a series of prophecies from the old testament and their fulfillment in the new testament relative to Christ and Jerusalem, and God's chosen people, the Israelites. "Moses was a prophet," said the speaker. "To be a prophet one must have been honest, not deceived and not know how his prophecies were to be fulfilled. Moses said Christ was to be born of the seed of a woman, not of a man, and that is exactly what the new testament record says. Here we get the immaculate conception of Jesus. Moses was the greatest of teachers. To make the other fellow see what you see is to be a successful teacher. He was most successful in teaching a people who were raised with many gods, a monotheistic religion, and giving them the ten commandments so pure and simple out of the midst of such dark society, and despotism. In literature he stands in the front rank. The test of a literature is its aptness to teach, its grasp of vital things, and its refutation of other things. Nothing does this like the writings of Moses. As an emancipator of slaves, the three millions from Egypt, and at the same time destroying the very gods of the country. As a legislator he laid the foundation of civil laws that are still holding good, and built up the purest democracy and republican form of government right out of the midst of the worst form of despotism." Dr. Bulgin stopped to digress on one phase of Moses' legislation that is pertinent to Pendleton and all the inland Empire, when he said "Pendleton will never grow with bonanza farms and farmers. It is the small intensive farming that makes for larger growth of any nation and section of a country. To overcome this large holding of land Moses devised the year of jubilee every 50 years, at which timethere was a redistribution of the land. Thus he established the inalienable right of God and the people, all the people, to the land."

Dr. Bulgin closed with a touching story of how he ran away from home after the death of his mother because of the ill-treatment of his father, whom he had soon learned to hate. Being sick, he returned home and in a striking way learned how his father had been converted and had forgiven him and longed for his return. Then said he. "You have Moses and the prophets, and Jesus as the proof of a Father's love, what are you going to do with it all?"

During the appeal 27 came forward.

Interior of Earth Seethes
WASHINGTON, Feb. 28.—The interior of the earth is hot, immensely hot, in the opinion of Grover E. Gilbert, writing today in a bulletin on "Interpretation of Anomalies of Gravity" for the United States geological survey. "The inner earth is the inalienable playground of the imagination," he said. "Once it contained the forges of blacksmith gods; or it was the birthplace of our race, or the home or prison of disembodied spirits. Later Symmes hollowed from it a vast habitable empire, concave like the world of Korsh. Science now claims exclusive title but holds it chiefly for speculative purposes, and the freedom of speculation recognizes but two limitations; the inner earth is done and it is right. It is my own view that the inner earth is dense and it is rigid. It is my own view that the inner part of the nucleus is not merely hot, but very hot."

RISE IN FREIGHT RATE ON FLOUR PROHIBITED

OHIO CONGRESSMAN MAY BE ENVOY TO RUSSIA

WASHINGTON, Feb. 28.—That Representative William G. Sharp, democrat, of Elyria, O., would be the next American ambassador to Russia, was the belief of Senator Pomeroy and Representative Sherwood, of Ohio, after they had conferred with President Wilson. White House officials said the prospects of Mr. Sharp's selection were bright, but no choice had been settled on definitely.

"The time has gone by when aviators care to confine their activities

Yell Defiance at Blood Disorders

A Remedy That Has Shown a Most Remarkable Purifying Effect.

At Last You Can Get Rid of Blood Troubles—S. S. S.

The word Medicine is one of the most abused in our language. There are certain medicinal properties just as necessary to health as the food we eat. Take, for example, the well-known medicine S. S. S. This famous blood purifier contains medicinal components just as vital and essential to healthy blood as the elements of wheat, meat, beef, the fats and the sugars that make up our daily ration.

As a matter of fact, there is one ingredient in S. S. S. which serves the active purpose of stimulating each cellular part of the body to the healthy and judicious selection of its own essential nutrition. That is why it regenerates the blood supply; why it has such a tremendous influence in overcoming Rheumatism, Catarrh of the Stomach and Intestines, skin eruptions and all blood troubles.

Get a bottle of S. S. S. at any drug store, and in a few days you will not only feel bright and energetic, but you will be the picture of new life. S. S. S. is prepared only in the laboratory of The Swift Specific Co., 219 Swift Bldg., Atlanta, Ga., who maintain a very efficient medical department where all who have any blood disorder of a stubborn nature may consult freely.

S. S. S. is sold everywhere by drug stores, department and general stores.

Don't permit anyone to sell you a substitute. Insist upon S. S. S.

to spectacular flying and entertaining people with circus tricks. We are developing the commercial use of the aeroplane, and it is for such a purpose that I have returned to California. I will at once establish a plant in Oakland.
